

# SHORTPATH DISTILLATION AT THE HIGHEST LEVEL

## Leading Distillation Technology

**ShortPath** is our turnkey fractional distillation system that makes the distillation process virtually effortless. From our specially-designed glassware, vacuum pump, and custom cold trap, we provide everything you need to produce the finest quality distillate down to the last fitting.

- Superior single-pass distillation
- Clog-proof condenser
- High-purity head
- FDA Compliant (GRAS)
- High reliability
- High flow rate
- Numerous styles of cows
- Low on condition maintenance

Model	Capacity	Footprint	Fraction Speed up to*	Process Type	Power Requirements
SP12	6L	24" x 48"	2000 gm/hr	Batch	52A 120/1/60
SP22	11L	24" x 48"	2800 gm/hr	Batch	54A 120/1/60

\*Results may vary depending on water content, operating parameters, chemical compounds, etc.
